CONTENTS

NUMBER 25

F. C. STEWARD, J. F. THOMPSON, and J. K. POLLARD: Contrasts in the Nitrogenous Composition of Rapidly Growing and Non-growing Plant Tissues 1

F. C. STEWARD, R. G. S. BIDWELL, and E. W. YEMM: Nitrogen Metabolism, Respiration, and Growth of Cultured Plant Tissue. 11

S. G. BOATMAN and W. MARY CROMBIE: Fat Metabolism in the West African Oil Palm (*Elaeis guineensis*). Part II. Fatty Acid Metabolism in the Developing Seedling 52

CLARENCE STERLING and B. J. SPIT: Submicroscopic Structure of the Cereal Starch Grain 75

LEONORA REINHOLD and R. G. POWELL: The Stimulatory Effect of Indole-3-Acetic Acid on the Uptake of Amino-Acids by Tissue of *Helianthus annuus* 82

D. J. D. NICHOLAS and TESSA GOODMAN: The Effects of Deficiencies of Zinc and Iron on Some Enzyme Systems in *Neurospora* 97

KAISER NAGUIB and THOMAS KENNEDY WALKER: Microbiological Synthesis of Fat 109

L. J. MIDDLETON and R. SCOTT RUSSELL: The Interaction of Cations in Absorption by Plant Tissues 115

G. E. BRIGGS, A. B. HOPE, and M. G. PITMAN: Exchangeable Ions in Beet Disks at Low Temperature 128

G. E. NEAL and A. C. HULME: The Organic Acid Metabolism of Bramley's Seedling Apple Peel 142

NUMBER 26

R. G. HURD: The Effect of pH and Bicarbonate Ions on the Uptake of Salts by Disks of Red Beet 159

G. E. BLACKMAN, R. S. BRUCE, and K. HOLLY: Studies in the Principles of Phytotoxicity. V. Interrelationships between Specific Differences in Spray Retention and Selective Toxicity . 175

S. H. CROWDY, D. RUDD JONES, and A. V. WITT: The Translocation of Sulphonamides in Higher Plants. II. Entry into the Leaves of Wheat 206

S. H. CROWDY and D. RUDD JONES: The Translocation of Sulphonamides in Higher Plants. III. Acetylation and Deacetylation of Sulphanilamide in Broad Beans and Wheat 220

S. H. CROWDY and D. RUDD JONES: The Translocation of Sulphonamides in Higher Plants. III. Acetylation and Deacetylation of Sulphanilamide in Broad Beans and Wheat 220

F. A. L. CLOWES: Protein Synthesis in Root Meristems . . 229

ELIZABETH E. HARDMAN and W. MARY CROMBIE: Fat Metabolism in Germinating *Citrullus vulgaris*. Part II 239

W. MARY CROMBIE and ELIZABETH E. HARDMAN: Fat Metabolism in the West African Oil Palm (*Elaeis guineensis*). Part III. Fatty Acid Formation in the Maturing Exocarp 247

W. MARY CROMBIE: Fatty Acids in Chloroplasts and Leaves . 254

R. SCOTT RUSSELL and HELEN M. SQUIRE: The Absorption and Distribution of Strontium in Plants. I. Preliminary Studies in Water Culture 262

J. V. POSSINGHAM and R. BROWN: The Nuclear Incorporation of Iron and its Significance in Growth 277

F. C. STEWARD and R. G. S. BIDWELL: Nitrogen Metabolism, Respiration, and Growth of Cultured Plant Tissue. Part IV . 285

A. BOOTH: Non-hormonal Growth Promotion Shown by Aqueous Extracts 306

NUMBER 27

C. P. WHITTINGHAM and A. H. BROWN: Oxygen Evolution from Algae Illuminated by Short and Long Flashes of Light . . 311

G. LEAF, I. C. GARDNER, and G. BOND: Observations on the Composition and Metabolism of the Nitrogen-Fixing Root Nodules of *Alnus* 320

D. C. SPANNER: The Translocation of Sugar in Sieve Tubes . 332

E. MAEDA: The Effects of Growth Regulators on the Geotropism of Leaf Sheath Basal Region in Wheat Plant 343

I. D. J. PHILLIPS and P. F. WAREING: Studies in Dormancy of Sycamore. I. Seasonal Changes in the Growth-substance Content of the Shoot 350

G. E. BRIGGS and A. B. HOPE: Electric Potential Differences and the Donnan Equilibrium in Plant Tissues 365

R. F. M. VAN STEVENINCK: Factors affecting the Abscission of Reproductive Organs in Yellow Lupins (*Lupinus luteus* L.). II. The Effect of Growth Substances, Defoliation, and Removal of Lateral Growth 372

D. COULT and K. V. VALLANCE: Observations on the Gaseous Exchanges which take place between *Menyanthes Trifoliata* L. and its Environment. Part II 384

G. E. NEAL and A. C. HULME: The Effect of 2:4-Dinitrophenol on the Respiration of Apple Tissue in Relation to the Respiration Climacteric 403

G. HADLEY and C. E. HARROLD: The Sporulation of *Penicillium notatum* Westling in Submerged Liquid Culture. I. The Effect of Calcium and Nutrients on Sporulation Intensity 408

G. HADLEY and C. E. HARROLD: The sporulation of *Penicillium notatum* Westling in Submerged Liquid Culture. II. The Initial Sporulation Phase 418

K. NAGUIB and T. K. WALKER: Microbiological Synthesis of Fat 426

E. ROBINSON and P. M. CARTWRIGHT: Nucleolytic Enzymes in Growing Root Cells 430

K. S. ROWAN: Phosphorylated Compounds in Plants. II. The Estimation of Hexose Phosphates and Adenosine Pyriphosphates in Plant Tissue by the Method of Slater 436

DAPHNE J. OSBORNE: Changes in the Distribution of Pectin Methylesterase across Leaf Abscission Zones of *Phaseolus vulgaris* 446

S. HOUSLEY and W. C. TAYLOR: Studies on Plant-Growth Hormones. VI. The Nature of Inhibitor-β in Potato . . 458
